GR233 PEGASUS VASE

MATERIALS NEEDED: Greenware, Clear Glass Glaze, Various Brushes, Sponge, Matte Spray Sealer.

DOC HOLIDAY COLORS: DH-29 White, DH-2 Butter Cream, DH-35 Powder Blue, DH-10 Mustard, DH-30 Country Blue, DH-13 Petal Pink, DH-8 Black, DH-15 Mystic Purple, DH-36 Navy Blue

- Step 1: Clean greenware, fire to Cone 04.
- Step 2: Glaze the inside of the piece with Clear Glaze.
- Step 3: Basecoat the sky and cloud areas with Butter Cream (it is alright to slightly overlap onto the horse as long as you do not allow the details to become clogged with stain).
- Step 4: Make a thin wash of each of the following colors: Mustard, Powder Blue, Navy Blue, Mystic Purple and Petal Pink. Use a 1/4" brush to sparingly apply the colors, using the lighter tones low on the flat sky area and pulling the strokes in at an angle and allowing a good deal of the basecoat showing (see the color photo). Gradually add the darker colors as you work toward the top of the vase. In some places, wash Mystic Purple over the Navy Blue and allow the Petal Pink and Mustard to overlap in random sections.
- Step 5: Slightly thicken the Navy Blue wash by adding a few drops of full-strength color to it. Using this color and clockwise and counter clockwise circular motions, brush in the clouds, do not go beyond the edges of the embossed areas, but paint several circular strokes in each cloud section.
- Step 6: Deepen the Navy Blue wash again and repeat the action of the previous step.
- Step 7: Deepen the color of the Navy Blue wash once again. Use this dark tone to shadow the cloud area behind the horse's tail and in the more prominent indentations.
- Step 8: Apply a wash of Mystic Purple to the darkest areas of the clouds and to the deep indentations.
- Step 9: Basecoat the horse with Black, using a little more moisture in the brush than normal, so that the color will flow into the deep crevices. Allow to dry.
- Step 10: Avoiding the inside curve of the wing, drybrush the remainder of the horse with Country Blue. Imagining that the light is coming from below the horse, keep the color lighter and brighter low on the animal and allow his back and far wing to be darker in tone.
- Step 11: Drybrush Powder Blue and then White onto the horse. Load the detail or liner brush with Powder Blue and follow a few strands of hair in the mane and tail, then brighten the ends of a few strands with White.
- Step 12: Paint the spots on the shoulder and haunch with a thin wash of Country Blue. Use the same color to slightly darken between the hooves, the knees and the dots above the hooves. Select a few dots and slightly darken them with a thin wash of Black.
- Step 13: Drybrush Mustard for reflected light on the chest, legs and under the foremost wing.
- Step 14: Lightly drybrush Petal Pink on the nose and Mystic Purple in the crevices on the back, in the mane and tail and under the foremost wing.
- Step 15: Paint the eye and nostril Black. Thin the Black to a wash and use a liner brush to darken the crevices, as necessary.
- Step 16: Thin Country Blue to a wash. Sparingly load a 1/2" square shader brush and using the same brush motion as for the front of the vase, paint the clouds. Start painting these clouds at the side of the vase where the front clouds are the lightest and leave the back dark where it joins the dark area of the vase front.
- Step 17: Repeat the previous step with a wash of Powder Blue over the Country Blue.
- Step 18: Brighten the edges of the clouds toward the center of the back, using a 1/8" brush and White with the same cloud brushstrokes.
- Step 20: Paint a long-tailed star on the back of the vase with White.
- Step 21: Spray the entire outside of the vase with Matte Spray Sealer.
